

TALIESIN DENNING

Dennings work entitled »National Anthems« will be presented at the opening ceremony of Amorph03 at Finlandia House. It contains all the worlds national anthems recorded on top of each other as a single track. The anthems are mostly totally lost but some melodies momentarily break through, other anthems are much longer and continue after the others have finished. The effect is rather dystopian, we experience a clamour of national identity (and electronic noise) rather than a harmony of nations united. *Download the song at www.muu.fi/amorph03 > artists > denning*
